

SAFETY DATA SHEET

Section 1: Identification	
Section 1, Identification	
Material	Diclofenac Sodium
Product	Diclofenac Sodium Topical Solution USP 1.5% w/w
Distributor	SOLA Pharmaceuticals 655 Highlandia Drive, Ste B Baton Rouge, LA. 70810 Tel: 866.747.7365 Fax: 800.754.9550 www.solameds.us info@solameds.us
NDC Number	70512-810-05 (150mL)
Section 2: Hazard(s) Identification	
Section 2, Hazard(s) Identification	
Fire and Explosion	Expected to be non-combustible.
Health	Diclofenac sodium is contraindicated in patients with a known hypersensitivity to diclofenac sodium or any other component of diclofenac sodium topical solution. Diclofenac sodium is contraindicated in patients who have experienced asthma, urticaria, or allergic-type reactions after taking aspirin or other NSAIDs. Severe, rarely fatal, anaphylactic-like reactions to NSAIDs have been reported in such patients. Diclofenac sodium is contraindicated in the setting of coronary artery bypass graft (CABG) surgery.
Environment	No information is available about the potential of this product to produce adverse environmental effects.
Section 3: Composition/Information on Ingredients	
Section 3, Composition/Information on Ingredients	
Ingredients	CAS
Diclofenac Sodium USP	15307-79-6
Section 4: First-Aid Measures	
Section 4, First-Aid Measures	
Ingestion	If conscious, give water to drink and induce vomiting. Do not attempt to give any solid or liquid by mouth if the exposed subject is unconscious or semi-conscious. Wash out the mouth with water. Obtain medical attention.
Inhalation	Move individual to fresh air. Obtain medical attention if breathing difficulty occurs. If not breathing, provide artificial respiration assistance.
Skin Contact	Remove contaminated clothing and flush exposed area with large amounts of water. Wash all exposed areas of skin with plenty of soap and water. Obtain medical attention if skin reaction occurs.
Eye Contact	Flush eyes with plenty of water. Get medical attention.

NOTES TO HEALTH PROFESSIONALS	
Medical Treatment	Treat according to locally accepted protocols. For additional guidance, refer to the current prescribing information or to the local poison control information center. Protect the patient's airway and support ventilation and perfusion. Meticulously monitor and maintain, with acceptable limits, the patient's vital signs, blood gases, serum electrolytes, etc.
OVERDOSAGE	<p>There have been no known experiences of overdose with diclofenac sodium topical solution.</p> <p>Symptoms following acute NSAID overdose are usually limited to lethargy, drowsiness, nausea, vomiting, and epigastric pain, which are generally reversible with supportive care. Gastrointestinal bleeding can occur. Hypertension, acute renal failure, respiratory depression and coma may occur, but are rare. Anaphylactoid reactions have been reported with therapeutic ingestion of NSAIDs, and may occur following an overdose.</p> <p>Manage patients using symptomatic and supportive care following an NSAID overdose. There are specific antidotes. Emesis is not recommended due to a possibility of aspiration and subsequent respiratory irritation by DMSO contained in diclofenac sodium topical solution. Activated charcoal (60 to 100 g in adults, 1 to 2 g/kg in children) and/or osmotic cathartic may be indicated in patients seen within 4 hours of ingestion with symptoms or following a large overdose (5 to 10 times the usual dose). Forced diuresis, alkalization of urine, hemodialysis, or hemoperfusion may not be useful due to high protein binding.</p> <p>For additional information above overdose treatment, call a poison control center (1-800-222-1222).</p>
Section 5: Fire-Fighting Measures	
Section 5, Fire-Fighting Measures	
Fire and Explosion Hazards	Assume that this product is capable of sustaining combustion.
Extinguishing Media	Water spray, carbon dioxide, dry chemical powder or appropriate foam.
Special Firefighting Procedures	For single units (packages): No special requirements needed. For larger amounts (multiple packages/pallets) of product: Since toxic, corrosive or flammable vapors might be evolved from fires involving this product and associated packaging, self-contained breathing apparatus and full protective equipment are recommended for firefighters.
Hazardous Combustion Products	Hazardous combustion or decomposition products are expected when the product is exposed to fire.
Section 6: Accidental Release Measures	
Section 6, Accidental Release Measures	
Personal Precautions	Wear protective clothing and equipment consistent with the degree of hazard.
Environmental Precautions	For large spills, take precautions to prevent entry into waterways, sewers, or surface drainage systems.
Clean-Up Methods	Collect and place it in a suitable, properly labeled container for recover or disposal.
Section 7: Handling and Storage	
Section 7, Handling and Storage	
Handling	No special control measures required for the normal handling of this product. Normal room ventilation is expected to be adequate for routine handling of this product.

Storage	Store at 25°C (77°F); excursions permitted to 15° to 30°C (59° to 86°F) [See USP Controlled Room Temperature].	
Section 8: Exposure Controls / Personal Protection		
Section 8, Exposure Controls / Personal Protection		
Wear appropriate clothing to avoid skin contact. Wash hands and arms thoroughly after handling.		
Section 9: Physical and Chemical Properties		
Section 9, Physical and Chemical Properties		
Physical Form	How Supplied	
	Diclofenac Sodium Topical Solution, 1.5% w/w is supplied as a clear, colorless to faintly pink orange solution containing 16.05mg of diclofenac sodium per mL of solution, in a white high density polyethylene bottle with a white low density polyethylene dropper cap.	
	NDC Number and Size	
	5 FL. OZ. (150mL) bottle in cartons of one	NDC # 70512-038-05
Section 10: Stability and Reactivity		
Section 10, Stability and Reactivity		
Stable under recommended storage conditions.		
Section 11: Toxicological Information		
Section 11, Toxicological Information		
Carcinogenesis, Mutagenesis, Impairment of Fertility		
<p>Carcinogenicity studies in mice and rats administered diclofenac sodium topical solution as a dietary constituent for 2 years resulted in no significant increases in tumor incidence at doses up to 2mg/kg/day corresponding to approximately 0.35- and 0.7-fold (mouse and rat, respectively) of the maximum recommended human topical dose (MRHD) of diclofenac sodium (based on apparent bioavailability and body surface area comparison).</p> <p>In a dermal carcinogenicity study conducted in albino mice, daily topical applications of diclofenac sodium for 2 years at concentrations up to 0.035% diclofenac sodium (a 43-fold lower diclofenac sodium concentration than present in diclofenac sodium topical solution) did not increase neoplasm incidence.</p> <p>In a photocarcinogenicity study conducted in hairless. Mice, topical application of diclofenac sodium at doses up to 0.035% diclofenac sodium (a 43-fold lower diclofenac sodium concentration than present in diclofenac sodium topical solution) resulted in an earlier median time of onset of tumors.</p> <p>Diclofenac was not mutagenic or clastogenic in a battery of genotoxicity tests that included the bacterial reverse mutation assay, <i>in vitro</i> mouse lymphoma point mutation assay, chromosomal aberration studies in Chinese hamster ovarian cells <i>in vitro</i>, and <i>in vivo</i> rat chromosomal aberration assay of bone marrow cells.</p> <p>Fertility studies have not been conducted with diclofenac sodium. Diclofenac sodium administered to male and female rats at doses up to 4mg/kg/day (1.4-fold of MRHD of diclofenac sodium based on apparent bioavailability and body surface comparison) did not affect fertility. Studies have not been conducted to determine the safety of DMSO on fertility.</p>		
Section 12: Ecological Information		
Section 12, Ecological Information		
No relevant studies identified.		

Section 13: Disposal Considerations

Section 13, Disposal Considerations

Incinerate in an approved facility. Follow all federal state and local environmental regulations.

Section 14: Transport Information

Section 14, Transport Information

IATA/ICAO – Not Required

IATA Proper Shipping Name:	N/A
IATA UN/ID No	N/A
IATA Hazard Class	N/A
IATA Packaging Group	N/A
IATA Label	N/A

IMDG – Not Regulated

IMDG Proper Shipping Name	N/A
IMDG UN/ID No	N/A
IMDG Hazard Class	N/A
IMDG Flash Point	N/A
IMDG Label	N/A

DOT – Not Regulated

DOT Proper Shipping Name	N/A
DOT UN/ID No	N/A
DOT Hazard Class	N/A
DOT Flash Point	N/A
DOT Packaging Group	N/A
DOT Label	N/A
