

SAFETY DATA SHEET

| Section 1: Identification | | | |
|--|---|---------------|---------------------|
| Section 1, Identification | | | |
| Product | Triple Antibiotic Ointment | | |
| Distributor | SOLA Pharmaceuticals 655 Highlandia Drive, Ste B Baton Rouge, LA. 70810 Tel: 866.747.7365 Fax: 800.754.9550 www.solameds.us info@solameds.us | | |
| NDC Number | 70512-102-30 (28.4g) | | |
| Recommended Use of the Chemical and Restrictions on Use | | | |
| Recommended Use: | To treat inflammation of the skin caused by a number of conditions such as allergic reactions, eczema, or psoriasis. | | |
| Uses Advised Against: | For External Use Only. Not for deep or puncture wounds. If symptoms persist, consult a doctor. | | |
| Section 2: Hazard(s) Identification | | | |
| Section 2, Hazard(s) Identification | | | |
| Classification of the chemical in accordance with Paragraph (d) of §1910.1200 | | | |
| Non Hazardous | | | |
| Signal word, hazard statement(s), symbol(s), and precautionary statement(s) in accordance with paragraph (f) of §1910.1200. (Hazard symbols may be provided as graphical reproductions in black and white or the name of the symbol, e.g., flame, skull and crossbones.) | | | |
| None | | | |
| Describe any hazards not otherwise classified that have been identified during the classification process. | | | |
| None | | | |
| Where an ingredient with unknown acute toxicity is used in a mixture at a concentration $\geq 1\%$ and the mixture is not classified based on testing of the mixture as a whole, a statement that X% of the mixture consists of ingredient(s) of unknown acute toxicity is required. | | | |
| None | | | |
| Section 3: Composition/Information on Ingredients | | | |
| Section 3, Composition/Information on Ingredients | | | |
| Except as provided for in paragraph (i) of §1910.1200 on trade secrets: | | | |
| For Substances | | | |
| | | | |
| Chemical Name | CAS No. | Weight | Trade Secret |
| Bacitracin Zinc | 1405-89-6 | 400 iu | No |
| Polymixin Sulphate | 1405-20-5 | 50,000 iu | No |

| | | | |
|---------------------|-----------|-------------------------|-----|
| Neomycin Sulphate | 1405-10-3 | 3.5mg equivalent to 5mg | No |
| White Soft Paraffin | 8009-03-8 | | Yes |

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

Section 4: First-Aid Measures

Section 4, First-Aid Measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion.

Eyes Flush with copious amounts of water for at least 15 minutes. Hold eyelids away from eyeball to ensure thorough rinsing. Irrigate each eye continuously with normal saline during transport. If irritation occurs or persists, seek medical attention.

Skin Not applicable.

Ingestion Toxicity is low after acute ingestion; gastrointestinal decontamination is generally not necessary. Seek medical advice and monitoring/treatment for allergic reactions.

Inhalation If breathing is difficult, remove to fresh air. Watch for signs of respiratory insufficiency and assist ventilations if needed. Monitor for pulmonary edema and treat if necessary.

**CALL A PHYSICIAN
CONTACT A POISON CONTROL CENTER**

Most important symptoms/effects, acute and delayed
None

Indications of immediate medical attention and special treatment needed, if necessary
Stop use and ask doctor if the condition worsens, if necessary.

Section 5: Fire-Fighting Measures

Section 5, Fire-Fighting Measures

Suitable (and unsuitable) extinguishing media
Water spray, dry chemical, carbon dioxide, or foam as appropriate for surrounding fire and materials.

Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products)
None

Special protective equipment and precautions for fire-fighters
Wear full protective clothing and self-contained breathing apparatus.

Section 6: Accidental Release Measures

Section 6, Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures
Non-essential personnel should be evacuated from the affected area. Spills should be cleaned up in a manner that minimizes exposure to personnel. Personnel involved in the clean up of spills should wear the appropriate respiratory protection, gloves, eye protection, and protective coveralls. Minimize the generation of aerosols. Remove all sources of heat and ignition.

Methods and materials for containment and cleaning up

Use a scraper or other device to remove and collect ointment. Minimize the generation of aerosols. Dampen remaining residue with water, then clean spill area thoroughly with soap and water. Collect wash with absorbent material and transfer all waste to a labeled container for disposal. Observe all applicable regulations when disposing of this substance.

Section 7: Handling and Storage

Section 7, Handling and Storage

Precautions for safe handling

Keep container closed when not in use. Avoid oxidants and extreme heat.

Hygienic practices

Wash thoroughly after handling. Use normal hygiene to protect hands, eyes and skin. Use general ventilations to protect your lungs. Do not wear contaminated clothing until thoroughly laundered.

Conditions for safe storage, including any incompatibilities

Store in a cool and dry place.

Section 8: Exposure Controls / Personal Protection

Section 8, Exposure Controls / Personal Protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available.

None

Appropriate engineering controls

None

Individual protection measures, such as personal protective equipment

Eye/Face protection: Wear appropriate chemical safety goggles, safety glasses, or face shield as described by OSHA’s eye and face protection regulations in 29 CFR 1910.133. Have eyewash stations available where eye contact can occur.

Skin and body protection: None

Respiratory protection: If exposure limits are exceeded, approved respiratory protection should be worn. Seek professional assistance for proper selection of respiratory protection.

Hygiene measures: Follow normal good hygiene conditions.

Section 9: Physical and Chemical Properties

Section 9, Physical and Chemical Properties

| | |
|---|---------------------|
| Appearance (physical state, color, etc) | A white ointment |
| Odor | No discernible odor |
| Odor threshold | Not available |
| pH | None |
| Melting point/Freezing point | Not available |
| Initial boiling point and boiling range | Not available |
| Flash point | Not available |
| Evaporation rate | Not available |
| Flammability (solid, gas) | Not available |
| Upper/Lower flammability or explosive limits | Not available |

| | |
|---|---------------|
| Vapor pressure | Not available |
| Vapor density | Not available |
| Relative density | Not available |
| Solubility(ies) | Not available |
| Partition coefficient: n-octanol/water | Not available |
| Auto-ignition temperature | Not available |
| Decomposition temperature | Not available |
| Viscosity | Not available |

Section 10: Stability and Reactivity

Section 10, Stability and Reactivity

| |
|--|
| Reactivity No data available |
| Chemical stability Stable for three (3) years |
| Possibility of hazardous reactions None |
| Conditions to avoid (i.e., static discharge, shock, or vibration) None |
| Incompatible materials None |
| Hazardous decomposition products Hazardous oxides, Nitrogen oxides |

Section 11: Toxicological Information

Section 11, Toxicological Information

| | |
|--|--|
| Description of the various toxicological (health) effects and the available data used to identify those effects, including: | |
| Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact) | |
| Inhalation | Although unlikely due to product form, inhalation of vapors may slightly irritate the nose, throat, and lungs. Symptoms are generally alleviated upon exposure to fresh air. |
| Ingestion | In an occupational setting, ingestion of this product is unlikely. Ingestion may cause irritation. |
| Skin | None |
| Eye Contact | Avoid contact with eyes. May cause irritation to eyes. |
| Symptoms related to the physical, chemical and toxicological characteristics No data available. | |

Delayed and immediate effects and also chronic effects from short- and long-term exposure

| | |
|---------------------------------|---|
| Sensitization | No information available |
| Mutagenic Effects | No information available |
| Carcinogenicity | No information available |
| Reproductive Toxicity | No information available |
| STOT – Single Exposure | No information available |
| STOT – Repeated Exposure | No information available |
| Chronic Toxicity | May cause adverse effects on the fetus. May include nausea, vomiting, muscle cramps, weakness, nervousness, restlessness, or trouble sleeping. Clinical use may cause electrolyte and/or blood chemistry changes. Drugs of this class may cause Cushing’s syndrome. |
| Aspiration Hazard | No information available |

Numerical measures of toxicity (such as acute toxicity estimates)

LD50 for Hydrocortisone (oral, mouse) = 5g/kg

Whether the hazardous chemical is listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or has been found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition), or by OSHA.

Product contains no known carcinogens.

Section 12: Ecological Information

Section 12, Ecological Information

Ecotoxicity (aquatic and terrestrial, where available)

The environmental impact of this product has not been fully investigated.

Persistence and degradability

No information available

Bioaccumulative potential

No information available

Mobility in soil

No information available

Other adverse effects (such as hazardous to the ozone layer)

None

Section 13: Disposal Considerations

Section 13, Disposal Considerations

Description of waste residues and information on their safe handling, and methods of disposal, including the disposal of any contaminated packaging

This material is not a hazardous material as per Federal Regulations (40 CFR 61). This material could become a hazardous waste if it is mixed or otherwise comes in contact with hazardous waste. Collect for recycling or recovery if possible. The disposal method for rejected products must be ensured that they cannot be resold or reused. Dispose of contents and containers in accordance with local rules.

Section 14: Transport Information**Section 14, Transport Information**

UN Number
Not available

UN proper shipping name
Not available

Transport hazard class(es)
Not available

Packing group, if applicable
Not available

Environmental hazards (e.g., Marine pollutant (Yes/No))
No

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code)
No data available

Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises
None

Section 15: Regulatory Information**Section 15, Regulatory Information**

Safety, health and environmental regulations specific for the product in question
None

Section 16: Other Information**Section 16, Other Information**

The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Nothing herein shall be deemed to create any warranty, express or implied. It is the responsibility of the user to determine the applicability of this information and the suitability of the material or product for any particular purpose.

SOLA shall not be held liable for any damage resulting from handling or from contact with the above product. SOLA reserves the right to revise this Safety Data Sheet.
