

SAFETY DATA SHEET

SECTION 1. Identification

(a) Product identifier used on the label

Sola Triple Antibiotic Ointment

(b) Other means of identification

Triple antibiotic Ointment

(c) Recommended use of the chemical and restrictions on use

Recommended use: To treat inflammation of the skin caused by a number of conditions such as allergic reactions, eczema, or psoriasis.

Uses advised against: For External Use Only. Not for deep or puncture wounds. If symptoms persist consult a doctor.

(d) Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party;

Importer's Name: SOLA Pharmaceuticals

Importer's Address: 655 Highlandia Dr. Ste B Baton Rouge, LA 70810

Telephone Number for Information: 866 757 7365

SECTION 2. Hazard(s) Identification

(a) Classification of the chemical in accordance with paragraph (d) of §1910.1200

NON HAZARDOUS

(b) Signal word, hazard statement(s), symbol(s) and precautionary statement(s) in accordance with paragraph (f) of §1910.1200. (Hazard symbols may be provided as graphical reproductions in black and white or the name of the symbol, e.g., flame, skull and crossbones)

NONE

(c) Describe any hazards not otherwise classified that have been identified during the classification process

NONE

(d) Where an ingredient with unknown acute toxicity is used in a mixture at a concentration $\geq 1\%$ and the mixture is not classified based on testing of the mixture as a whole, a statement that X% of the mixture consists of ingredient(s) of unknown acute toxicity is required.

None

SECTION 3. Composition/information on ingredients

Except as provided for in paragraph (i) of §1910.1200 on trade secrets:

For Substances

Chemical name	CAS NO	WEIGHT	TRADE SECRET
Bacitracin Zinc	1405-89-6	400 iu	NO
Polymixin Sulphate	1405-20-5	50,000 iu	NO
Neomycin Sulphate	1405-10-3	3.5 mg equivalent to 5mg	NO
White Soft Paraffin	8009-03-8		YES

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

SECTION 4. First-Aid Measures

- (a) Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion**

Route	Necessary Measures In Case Of Exposure
Eyes	Flush with copious amounts of water for at least 15 minutes. Hold eyelids away from eyeball to ensure thorough rinsing. Irrigate each eye continuously with normal saline during transport. If irritation occurs or persists, seek medical attention.
Skin	Not Applicable
Ingestion	Toxicity is low after acute ingestion; gastrointestinal decontamination is generally not necessary. Seek medical advice and monitoring/treatment for allergic reactions.
Inhalation	If breathing is difficult, remove to fresh air. Watch for signs of respiratory insufficiency and assist ventilations if needed. Monitor for pulmonary edema and treat if necessary.

**CALL A PHYSICIAN
CONTACT A POISON CONTROL CENTER**

- (b) Most important symptoms/effects, acute and delayed**

None

- (c) Indication of immediate medical attention and special treatment needed, if necessary**

Stop use and ask doctor if the condition worsens, if necessary.

SECTION 5. Fire-Fighting Measures

- (a) Suitable (and unsuitable) extinguishing media**

Water spray, dry chemical, carbon dioxide, or foam as appropriate for surrounding fire and materials.

- (b) Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products)**

None

- (c) Special protective equipment and precautions for fire-fighters**

Wear full protective clothing and self-contained breathing apparatus.

SECTION 6. ACCIDENTAL RELEASE MEASURES

- (a) Personal precautions, protective equipment, and emergency procedures**

Non-essential personnel should be evacuated from the affected area. Spills should be cleaned up in a manner that minimizes exposure to personnel. Personnel involved in the clean up of spills should wear the appropriate respiratory protection, gloves, eye protection, and protective coveralls. Minimize the generation of aerosols. Remove all sources of heat and ignition.

- (b) Methods and materials for containment and cleaning up**

Use a scraper or other device to remove and collect ointment. Minimize the generation of aerosols. Dampen remaining residue with water, then clean spill area thoroughly with soap and water. Collect wash with absorbent material and transfer all waste to a labeled container for disposal. Observe all applicable regulations when disposing of this substance.

SECTION 7. HANDLING AND STORAGE

(a) Precautions for safe handling

Keep container closed when not in use. Avoid oxidants and extreme heat.

(b) Hygienic Practices

Wash thoroughly after handling. Use normal hygiene to protect hands, eyes and skin. Use general ventilation to protect your lungs., Do not wear contaminated clothing until thoroughly laundered.

(c) Conditions for safe storage, including any incompatibilities

Store in cool and dry places.

SECTION 8. Exposure Controls/Personal Protection

(a) OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available

None

(b) Appropriate engineering controls

None

(c) Individual protection measures, such as personal protective equipment

Eye/face protection: Wear appropriate chemical safety goggles, safety glasses, or face shield as described by OSHA's eye and face protection regulations in 29 CFR 1910.133. Have eyewash stations available where eye contact can occur

Skin and body protection: None

Respiratory protection: If exposure limits are exceeded, approved respiratory protection should be worn. Seek professional assistance for proper selection of respiratory protection

Hygiene measures: follow normal good hygiene conditions.

SECTION 9. Physical And Chemical Properties

Appearance (physical state, color, etc.)	A white ointment
Odor	No discernible odour
Odor threshold	Not Available
pH	None.
Melting point/freezing point	Not Available
Initial boiling point and boiling range	Not Available
Flash point	Not Available
Evaporation rate	Not Available
Flammability (solid, gas)	Not Available
Upper/lower flammability or explosive limits	Not Available
Vapor pressure	Not Available
Vapor density	Not Available
Relative density	Not Available
Solubility(ies)	Not Available
Partition coefficient: n-octanol/water	Not Available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	Not Available

SECTION 10. Stability And Reactivity

(a) Reactivity

No data available

(b) Chemical stability

Stable for three years

(c) Possibility of hazardous reactions

None

(d) Conditions to avoid (e.g., static discharge, shock, or vibration)

None

(e) Incompatible materials

None

(f) Hazardous decomposition products

Carbon Oxides, Nitrogen Oxides.

SECTION 11. Toxicological Information

Description of the various toxicological (health) effects and the available data used to identify those effects, including:

(a) Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)

Inhalation	Although unlikely due to product form, inhalation of vapors may slightly irritate the nose, throat, and lungs. Symptoms are generally alleviated upon exposure to fresh air
Ingestion	In an occupational setting, ingestion of this product is unlikely. Ingestion may cause irritation
Skin	None
Eye Contact	Avoid contact with eyes. May cause irritation to eyes

(b) Symptoms related to the physical, chemical and toxicological characteristics

No data available.

(c) Delayed and immediate effects and also chronic effects from short- and long-term exposure

Sensitization	No Information Available
Mutagenic Effects	No Information Available
Carcinogenicity	No Information Available
Reproductive Toxicity	No Information Available
STOT – Single Exposure	No Information Available
STOT – Repeated Exposure	No Information Available
Chronic Toxicity	May cause adverse effects on the fetus. May include nausea, vomiting, muscle cramps, weakness, nervousness, restlessness, or trouble sleeping. Clinical use may cause electrolyte and/or blood chemistry changes. Drugs of this class may cause Cushing's syndrome.
Aspiration Hazard	No Information Available

(d) Numerical measures of toxicity (such as acute toxicity estimates)

(e) LD₅₀ for Hydrocortisone(oral, mouse) = 5 g/kg

(f) Whether the hazardous chemical is listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or has been found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition), or by OSHA

Product contains no known carcinogens.

SECTION 12. Ecological Information

(a) Ecotoxicity (aquatic and terrestrial, where available)

The environmental impact of this product has not been fully investigated

(b) Persistence and degradability

No Information Available

(c) Bioaccumulative potential

No Information Available

(d) Mobility in soil

No Information available

(e) Other adverse effects (such as hazardous to the ozone layer)

None

SECTION 13. Disposal Considerations

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging.

This material is not a hazardous material as per federal regulations (40 CFR 61). This material could become a hazardous waste if it is mixed or otherwise comes in contact with hazardous waste. Collect for recycling or recovery if possible. The disposal method for rejected products must be ensured that they cannot be resold or reused. Dispose off contents and containers in accordance with local rules

SECTION 14. Transport Information

(a) UN number

Not Available

(b) UN proper shipping name

Not Available

(c) Transport hazard class(es)

Not Available

(d) Packing group, if applicable

Not Available

(e) Environmental hazards (e.g., Marine pollutant (Yes/No))

No

(f) Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code)

No Data Available

(g) Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises.

None.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations specific for the product in question.

None

SECTION 16. Other information, including date of preparation or last revision

Disclaimer:

The information furnished herein is believed to be accurate and represents the best data currently available to us. No warranty, expressed or implied, is made and Altova Healthcare. assumes no legal responsibility or liability resulting from its use. This SDS was last revised on June 24th, 2016. This SDS has been compiled in accordance with - EC Directive 91/155/EC - OSHA's Hazcom Standard (29 CFR 1910.1200)
